EDUCATION

BS	Pure Mathematics, Minor in Cybersecurity University of Puerto Rico, Río Piedras	August 2016 - Present
----	--	-----------------------

RESEARCH EXPERIENCE

APN Functions, and Classifying 2-Error-Correcting Cyclic Codes University of Puerto Rico	August 2021 - Present
---	-----------------------

- Researching APN functions and the classification of certain 2-error correcting cyclic codes for use in cryptography and coding theory.
- Mentored by Professor Heeralal Janwa, Ph.D.

The General Linear Group: Finding 2×2 Representations of Finite Groups University of Puerto Rico	April 2020
--	------------

- Final project for the second undergraduate seminar in mathematics (MATE3170). Research the general linear group on 2×2 matrices and representations of well known groups using these matrices.
- Worked under the supervision of Professor Raúl Figueroa, Ph.D.

Matroid Theory University of Puerto Rico	November 2019
---	---------------

- Final project for the first undergraduate seminar in mathematics (MATE3070). Gave a survey of the field of Matroid theory, and its applications in Graph theory, Topology, and Algorithm Design.
- Worked under the supervision of Professor Iván Cardona, Ph.D.

Algebraic Codes over Elliptic and Hermitian Curves University of Puerto Rico	May 2019
---	----------

- Research paper, and final project of the Introduction to Coding Theory course. Studied and found algebraic geometric codes using elliptic and Hermitian curves for use in coding theory and cryptography.
- Worked under the supervision of Professor Heeralal Janwa, Ph.D.

GRANTS AND AWARDS

Puerto Rico Louis Stokes Alliance for Minority Participation University of Puerto Rico August 2021 - May 2022 NASA PR Space Grant Fellowships and Scholarship Program University of Puerto Rico	August 2022 - Present
---	-----------------------

- NASA PR Space Grant No. 80NSSC20M0052

RESEARCH INTERESTS

- | | |
|--|---|
| <ul style="list-style-type: none">• Group Theory• Finite Fields• Algebraic Geometry and the study of algebraic curves• Topology and its use in other areas of mathematics• Graph theory, Matroid theory, and | <ul style="list-style-type: none">Combinatorics• Algorithm Design for use in computer science and computational mathematics• Cybersecurity research and normalizing a culture that is privacy and security oriented• Post-Quantum error correcting codes |
|--|---|

TEACHING AND MENTORING EXPERIENCE

Proyecto Tutorías DECEP University of Puerto Rico, Río Piedras Mathematics tutor	2020-2021
--	-----------

- Conducted assessments to identify the educational needs of my students and developed individualized learning plans.
- Tasked with providing tutoring services to seven high school students for 10 hours a week in the subjects of Algebra and Pre-Calculus.

Self-Employed Mathematics tutor	2019-2021
------------------------------------	-----------

- Evaluated students learning styles and provided appropriate techniques for maximizing understanding and minimizing frustration.
- Simplified math concepts while coaching students to think critically when problem solving; eventually introducing them to axiomatic systems within mathematics.
- Provided tutoring one-on-one to five highschool students in the subjects of Algebra, Pre-Calculus, and geometry for two times a week, at two hours for each session.

PUBLICATIONS

Works in Preparation

Janwa, H. Zabel-Mena, A. *APN Functions, and Classifying 2-Error-Correcting Cyclic Codes.* unpublished.

HONORS AND AWARDS

Dean's List	2016 - 2021
-------------	-------------

MEMBERSHIPS AND AFFILIATIONS

Asociación de Estudiantes de Ciencias de Computos (AECC)	2022 - Present
Asociación de Estudiantes de Matemáticas (AeMAT)	2019-2020
Senzala Capoeira	2016 - 2020

PROFESSIONAL DEVELOPMENT

Conferences Given

- Junior Technical Meeting (JTM)

June 2022 Webinars

- Going Down the Cyber Security Rabbit Hole
Dr. José Ortiz Ubarri, University of Puerto Rico

February 2022

Conferences attended as spectator

- Interuniversity Seminar on Mathematical Sciences Research (SIDIM) February 2022

SKILLS

- Languages

- English: Native
- Spanish: Native
- Portuguese: Basic (A2)

- Software

- Excel
- \LaTeX
- Knowledge of UNIX-like systems and the commandline to streamline workflow and automate repetitive tasks.
- Privacy and Security Oriented
- C/C++
 - Used C++ to implement a polynomial root finding algorithm in order to find the number of points on a given rational surface.
- SAGE
 - Used SAGE to find elliptic curves that attained the Hasse-Weil bound.
